

EASY 5120-RT

Wired Router Reference Package V1.1

The EASY 5120-RT reference package demonstrates Infineon's wired router capabilities. This reference platform allows system engineers to develop time-to-market router products.

The EASY 5120-RT reference design is based on Infineon's SoC LAN technologies to provide high data transmission throughput through wired access. The software is based on Linux operating system embedded with fast NAT.

Applications

The applications of EASY 5120-RT reference package are for SOHO router or small office router. With 10/100 based-T WAN interface, the EASY 5120-RT can connect to ADSL modem or cable modem to access the broadband services. The fast NAT provides high throughput and shares the public IP with PCs connected to the LAN ports.

Hardware Features

- One WAN interface on-board
- Four LAN interfaces on-board
- USB 1.1
- RS-232 daughter board serial interface
- Support for EJTAG debugger interface
- Requires +12 V power supply

Software Features

- Embedded Linux® kernel version 2.4.20
- Device drivers for all internal peripherals
- Supports TCP/IP related networking protocols (IP, TCP, UDP, ARP, RARP, ICMP, DHCP, UPnP, PPP, and PPPoE)
- NAT, NAPT, ALG, Firewall, Address filtering, DNS, NTP
- Download function via TFTP and web
- Web based configuration

Ordering Information

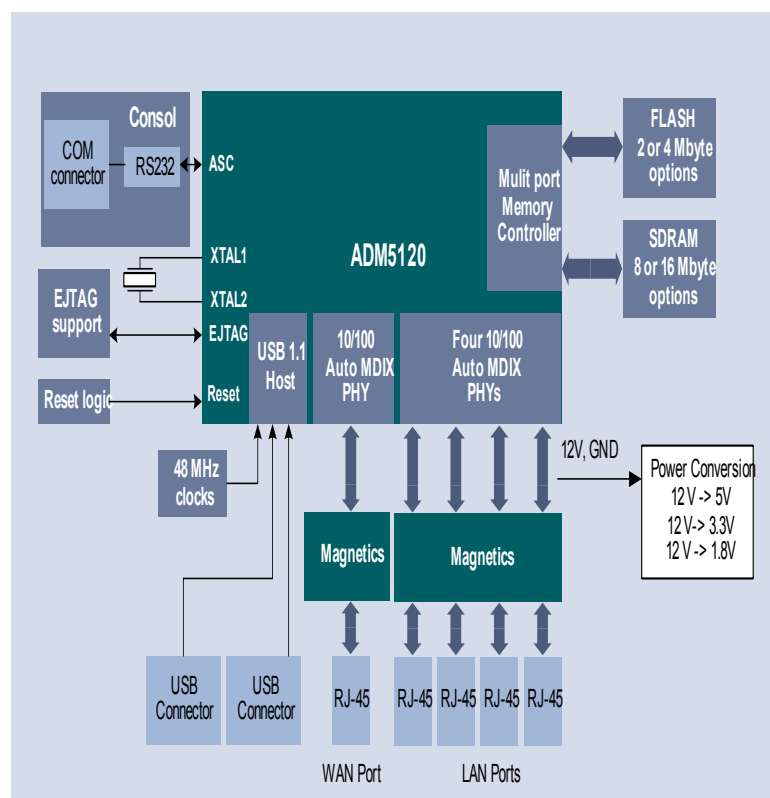

Core Technology Products

Product	Sales Code	Description	Package
ADM5120	ADM5120	Communication network processor for higher layer communication interfaces and management	BGA-324

Reference Platform

Product Sales Code	Description	Package
EASY 5120-RT	Highly integrated router hardware reference platform for wired router software development.	One board and Linux Software package

Complete Wired Router Application Example

Attention please!

The information herein is given to describe certain components and shall not be considered as a guarantee of characteristics. Terms of delivery and rights to technical change reserved. We hereby disclaim any and all warranties, including but not limited to warranties of non-infringement, regarding circuits, descriptions and charts stated herein.

Information

For further information on technology, delivery terms and conditions and prices please contact your nearest Infineon Technologies Office.

Warnings

Due to technical requirements components may contain dangerous substances. For information on the types in question please contact your nearest Infineon Technologies Office.

Infineon Technologies Components may only be used in life-support devices or systems with the express written approval of Infineon Technologies, if a failure of such components can reasonably be expected to cause the failure of that life-support device or system, or to affect the safety or effectiveness of that device or system. Life support devices or systems are intended to be implanted in the human body, or to support and/or maintain and sustain and/or protect human life. If they fail, it is reasonable to assume that the health of the user or other persons may be endangered.
